

Urban pollinators : how can cities protect pollinators and build resilience to climate change ?

20 septembre 2023

The Horizon project [Safeguard](#) is happy to invite you to an online webinar: "Urban pollinators: how can cities protect pollinators and build resilience to climate change? " on September 20. This event will be online from 10:30 to 12:15 CET.

The webinar will help provide keys for city managers to optimise co-benefits for pollinator conservation and climate through urban greening and highlight best practices.

The key questions that will be explored are:

- What is the effect of heat on urban pollinators?
- How can urban greening plans integrate better these issues and create synergies climate adaptation/ resilience of pollinators?
- Perceptions: willingness of citizens to undertake pollinator conservation actions/ pollinator behaviour
- Nature based solutions: synergising climate and biodiversity

Join us! This event is organised by the Institute for European Environmental Policy (IEEP) and IUCN Europe in the context of the SAFEGUARD project.
